NOVEMBER 4, 2026 · INVESTORS.OCAL.CA · FOR CQ (EASYPEAR) AND HAS

WHAT IS IN THIS FOLDER, WHAT WAS DECIDED, AND WHAT HAPPENS NEXT

A complete, turnkey investor website for OCAL Financial (TSXV: OCAL): eighteen finished HTML pages, every word of copy, structured data, sitemaps, the 3 November 2026 news release as the per-release page pattern, and the handoff documents CQ and Has need to put it live at investors.ocal.ca. Built on 23 October 2026 from a review of 33 investor sites and an audit of OCAL's public record; rebuilt on 4 November 2026 on Matthew's instruction with every placeholder cleared, the audited figures only, and counsel's 31 October wording applied throughout. Nothing on the site waits on anyone: CQ deploys it, Has connects the email list, Matthew reads it once.

THE DOCUMENTS

#	DOCUMENT	FOR	WHAT IT IS
00	Read me first	Everyone	This index, the decisions, the go-live gates, what to send.
01	Master handoff for CQ	CQ, copy Has	Domain and DNS, hosting, how to deploy the static site or port it into the CMS, per-page title and description table, widgets, redirects from ocalfinancial.ca, sitemaps, Search Console, analytics events, release-page workflow, acceptance checklist, every placeholder.
02	Handoff for Has	Has, copy CQ	Email list set-up, welcome email, data-vendor profile corrections with the approved description, LinkedIn and Crunchbase, measurement dashboard, monthly maintenance rhythm, release-day checklist.

03	Wording guide	Everyone who writes	Lines that hold, wording that goes and what replaces it, metric definitions, the forward-looking legend and non-IFRS note, title-tag patterns, voice rules.
04	Operating update on the site	Matthew, Terence, CQ, Has	Companion to the release program (Press Releases, 02 Scheduled, notes 00): how the monthly results block appears on the site, how a release becomes a page, who does what each month.
05	SEO and search plan	CQ and Has	The queries to own and who ranks today, the five moves that matter, technical patterns, structured data, indexing, AI answer engines, vendor fix order, newswire distribution.
06	All page copy (review deck)	Matthew, Mehdi, Shushu	Every page's copy in reading order for review and markup. Generated from the same source as the site.
07	Research synthesis	Everyone	What we took from which site, what we deliberately did not copy, and where each idea landed on the new site.
08	Self-review and scorecard	Matthew	The site scored against the 12 October 14-element checklist (the old page scored 38 of 100) as delivered and at go-live, against the ideas lists in the three research files, and an honest view of how it will rank in search and why.
site folder	The website	CQ	index.html and one folder per page; assets; sitemap.xml, news-sitemap.xml, feed.xml, robots.txt, llms.txt, 404.html, site.webmanifest.
source folder	Generators	CQ, future sessions	content.py (all copy), build_site.py (HTML), build_docs.py (these documents), PLACEHOLDERS.txt. Change the copy in content.py and rebuild; never hand-edit the HTML.
research folder	Research	Reference	A: Canadian fintech, auto and TSXV sites. B: US auto retail and marketplaces. C: best-in-class sites and the SEO plan. D: OCAL public record audit (site, TMX, SEDAR+, releases, vendors, search).

DECISIONS (MATTHEW, 23 OCTOBER AND 4 NOVEMBER 2026)

- **Separate domain.** The investor site lives at investors.ocal.ca, not inside ocalfinancial.ca. The consumer site keeps its Investors menu item, pointing to the new domain, and every old investor URL on ocalfinancial.ca is redirected one to one (document 01, section 5). Trade-off accepted: a new domain starts with no search authority, so the redirects, the links from every

news release and the consumer site footer, and the entity work in document 05 carry the ranking.

- **Turnkey, 4 November 2026.** No gate sits with Terence or Garrett. Every figure on the site is from the audited FY2025 and FY2024 statements, the Filing Statement, the exchange record or an issued release; the monthly operating metrics start with the 10 November 2026 results release and are added to the site the day each release is issued, exactly as released. The two things only the team can supply, the email list's form action and a captured SEDAR+ profile link, are single strings in content.py.
- **No forecast, no plan table, no per-vehicle dollar figures (30 October 2026).** The FY2027 to FY2030 plan table and the per-vehicle economics were removed on 30 October 2026 under the investor narrative rules: the site carries the audited FY2025 and FY2024 figures, the roadmap with the status of each market, the metric definitions and the audited operating-leverage lines only (revenue up 18.8 percent, gross profit up 32.7 percent, operating expenses down 9.8 percent, operating loss halved). No fixed-cost dollar figure, no financing terms or amounts, and no statement about who has been selling the stock, anywhere (counsel, 31 October; the 30 October evening review).
- **Free widgets.** TradingView chart for TSXV:OCAL (delayed), links to TMX Money and Frankfurt, Brevo free tier for the alert list; until Has pastes its form action into content.py the Subscribe button sends an email request to investors@ocal.ca, so the block works from day one. No monthly cost.

FACTS THE AUDIT CHANGED

The public-record audit (research file D) corrected several figures that earlier internal documents carried. The site now uses: 23,638,104 shares in escrow (TSXV bulletin and TMX Money); warrants 11,029,501 plus 39,760 finder warrants; options 600,000 plus 100,000 pending for the IR firm; about 48.3 million fully diluted; the July 2026 financing as 6,029,500 units for $1,507,375; the market maker (Integral Wealth Securities) and the IR firm (Signal Capital Advisors) named exactly as released; and a plain answer to the inventory and floorplan balances that appear in the interim statements ($86,300 and $222,033 at 31 May 2026), which the old page contradicted with 'no inventory'. No news release yet covers the lead supplier, so the site says only that lead generation, the CRM and the AI sales agents run on one platform; when release 10 is issued (scheduled 17 November 2026), one sentence is added in the release's words.

GO-LIVE STEPS (THREE, NONE OF THEM A FIGURE)

1. **CQ: domain, deploy, redirects.** DNS for investors.ocal.ca, the site folder as-is, the 301 redirects from ocalfinancial.ca and the consumer-site Investors link live at the same moment (document 01).

2. **Has: the email list.** Create the Brevo list with double opt-in, paste the form action URL into SITE['form_action'] in content.py and rebuild; add the GA4 snippet (document 02).
3. **Matthew: one read.** Document 06 is every word on the site in reading order. Shushu may read it too; edits go into content.py, then rebuild.

WHAT TO SEND, AND WHEN

WHEN	TO	WHAT	HOW
Now	CQ (EasyPear), copy Has	Documents 00, 01, 03, 05 and the site, source and research folders (zip)	Email draft for Matthew to send
Now	Has, copy CQ	Documents 00, 02, 03, 05	Same email thread
When the staging link exists	Shushu	Document 06 and the staging URL	For her read; edits via content.py
At go-live	Mehdi, board	The live link and document 00	For information; Matthew approves go-live

NOT IN THIS PACKAGE, ON PURPOSE

Anything not yet released: the OTC quotation and DTC eligibility (release 16, 22 December), the lead supplier transaction and Hasneen Jalil's appointment (release 10, 17 November), the United States beyond the roadmap line; any cash figure between reporting dates; any FY2026 figure before the audited statements are filed; share-trading analysis; financing terms. The consumer site is not touched beyond the Investors link and the redirects.
