EMAIL LIST, VENDOR PROFILES, MEASUREMENT, THE MONTHLY RHYTHM

CQ puts the site up. You make it work as a channel: the alert list that turns a visitor into a subscriber, the data-vendor profiles that still describe OCAL as a powersports and healthcare lender, the analytics that tell Matthew what investors read, and the monthly rhythm that keeps every date and number on the site current. Everything here is inside the rules: nothing is sent to the list before the wire has it, no vendor text goes out before Matthew approves it, and nothing promotional is bought.

1. THE EMAIL ALERT LIST (THIS WEEK)

STEP	DETAIL
Tool	Brevo (free to 300 emails a day) or Mailchimp free tier. One list: 'OCAL investor alerts'. Sender: OCAL Financial Investor Relations <investors@ocal.ca>, reply-to the same. Verify the ocal.ca sending domain (SPF, DKIM) so releases do not land in spam.
Consent	Double opt-in, mandatory. Confirmation email text: 'Confirm your OCAL investor alerts. You asked to receive OCAL Financial (TSXV: OCAL) news releases, operating updates and filings by email. Click to confirm. Issued by OCAL Financial Inc., Suite 500, 885 Dunsmuir Street, Vancouver, BC V6C 1N5.' CASL requires the identification and an unsubscribe link in every message.
Segments (optional fields, never required)	Investor type: individual, advisor or broker, fund, media, other. Used for reporting only.
Welcome email	Subject: 'Welcome to OCAL investor alerts'. Body: three lines on what they will receive, the one-page fact sheet as a PDF attachment and a link to /fact-sheet/, the link to the Why OCAL page, the IR contact. No pitch beyond that.
Form	Give CQ the embedded form action URL and the field name (EMAIL). CQ wires it into the seven subscribe blocks in one change.
Every release	Within the hour of Newsfile distribution, never before: subject line is the release headline; body is the first two paragraphs, the operating update table if there is one, a link to the release page on investors.ocal.ca and to SEDAR+, the s8.6 statement, the unsubscribe line.
Every filing	Audited statements, interims and the circular: one email the day they are filed, with the plain-language summary from the Financials page.

Targets	250 confirmed subscribers by 21 January 2027 (90 days), 600 by 21 April 2027. Report the count in the monthly dashboard.

2. FIX THE RECORD: DATA-VENDOR PROFILES

Eight of fourteen data vendors still carry OCAL's pre-listing description (auto, powersports, RV, personal loans, auto repair and healthcare financing). The text is identical across Yahoo Finance, Stockhouse, Simply Wall St, StockAnalysis, Weiss, Wealth Awesome, MarketScreener and CNBC, and it comes from one upstream source, S&P Capital IQ. Google Finance shows 13.03 million shares and 'payment service provider'. CNBC lists Ronin's former officer as CEO. Fixing these is cheap and changes what every investor and every AI assistant reads first. Full vendor table with contact routes: research file C, Part 2d.

The approved description (approved 4 November 2026: the About OCAL boilerplate of the 3 November release)

6	Morningstar	dataquestions@morningstar.com	Add the TSXV listing and the 31 August year end; their text is otherwise close

12	Wikidata (later, after the above)	Create an item from an account that discloses its connection to OCAL; cite SEDAR+, the TSXV bulletin and GLEIF	instance of business; official website; stock exchange TSXV with ticker OCAL and start date 2026-07-21; Frankfurt JC3; ISIN; LEI; headquarters Vancouver; inception 2021

Keep a log: vendor, date sent, route, date fixed. Report it in the monthly dashboard. Expect Yahoo to update within about 14 days of the S&P change.

3. MEASUREMENT

MEASURE	SOURCE	CADENCE
Visits to investors.ocal.ca, pages per visit, top pages, countries	GA4	Monthly, first business day
Events: subscribe_submit, deck_download, fact_sheet_print, release_read, call_booked	GA4	Monthly
Confirmed subscribers, opens and clicks per release email	Brevo or Mailchimp	Monthly and after each release
Search: impressions, clicks, average position for the brand queries in document 05, section 2	Search Console	Weekly for the first 90 days, then monthly
Rank snapshot for the twelve tracked queries, logged out, google.ca	Manual or a rank tracker	At go-live, then days 30, 60, 90
Share volume and price (context only, never a target)	TMX Money	Monthly
Vendor profile log	Section 2	Monthly until all are fixed
AI answer check: five prompts in ChatGPT, Perplexity, Gemini and Google AI Mode ('What is OCAL Financial?', 'What exchange is OCAL listed on?', 'OCAL Financial Frankfurt symbol', 'Who is the CEO of OCAL Financial?', 'Is OCAL Financial a car dealer?')	Manual	Monthly; a wrong answer points to the profile that still needs fixing

4. THE MONTHLY RHYTHM (FIRST BUSINESS DAY OF EACH MONTH)

- **Dates.** Events page: move past events down, add the next reporting deadline; Financials page: reporting calendar current; home page 'Updated' month in the footer (SITE['updated'] in content.py; CQ rebuilds).
- **Numbers.** Stock page 'as at' date and any change in shares outstanding from the last release; Operating metrics history table after each release that carries the section; the 'funded deals' tile when a release updates it.
- **Documents.** Presentations page: the deck and fact sheet carry a version date; anything superseded comes off the page; the old file is moved, not deleted.
- **Links.** Run a link check on the domain; fix dead SEDAR+ links (SEDAR+ document links can change).
- **Report.** One page to Matthew: the measures in section 3, what changed on the site, what is due next month.

5. RELEASE DAY, IN ORDER

1. Garrett's review and the CIRO pre-file are done (Matthew or Shushu confirms).
2. Newsfile distributes, before 8:30 am Eastern where possible, with '(TSXV: OCAL) (FSE: JC3)' in the header and the investor URL at the foot.
3. CQ publishes the release page on investors.ocal.ca and pings IndexNow and Search Console.
4. You send the list email within the hour, linking to the release page and SEDAR+.
5. LinkedIn company post from the corporate page: headline, one line, link to the release page (no commentary beyond the release text).
6. Fifteen minutes later, check: Yahoo Finance press-release tab for OCAL.V, TMX Money news tab, Stockhouse, the release page in Google (search the exact headline in quotes).
7. Log the release in the operating-metrics history if it carries the section.
